

From the Principal's Desk

Let's expand the Horizon of learning.....

Amma reveals her vision for holistic education, "Education should spread light within and out. Education should equally develop discernment and contemplation. It should develop the curiosity to know the internal world just as much as it does to know the external world. Education should teach us to keep our inner eye open just as much as our external eyes. It should instil awareness and strengthen the deep bond between the student and his nation, the world, his fellow human beings and other creatures, Nature and God."

The hallmark of Amrita is its focus on ethics and culture. Keeping in mind the ever changing needs of the millennial generation, the school's vision is to not only empower the children to meet life's challenges, but to also inculcate in them a sense of social responsibility.

To advance these noble ideals, Amma, through her infinite love and compassion, has established a vast network of educational institutions, which comprise a wide and diverse spectrum of the highest quality education.

We at Amrita Vidyalayam believe that in their formative years, children should be allowed to evolve naturally and in an unforced manner. Amrita curriculum is a balance between curricular and co-curricular activities which helps the students to grow in all spheres of life and lead a meaningful life.

We ensure through various Amritam projects that values of compassion, humility, sharing, respect... are instilled in young minds. Let's join our hands in creating a future generation which is EDUCATED in real sense. Generation filled with care, empathy and has a feeling of gratitude towards their parents and society.

लोकः समस्ताः सुखिनो भवन्तु

Amrita Schools-Dispersing Education with Love, Compassion and Divinity
